Regarding contract employment for [redacted] I am told by [redacted] that we will have to make a pretty strong case because re-employment of retirees on contract is subject to approval by Colonel White. [redacted] says that they do have a requirement for someone to write the history of the Management Staff but wonders what else we might have for him to do in addition to the history writing and also wonders about Fred's writing ability.

I was unable to respond to the question about the writing ability because I don't recall ever having seen anything of any significance written by Fred. I was also unable to respond to the question about what we might get him to do in addition to the history of the Management Staff that would be something which could not be done by a Staff employee.

If you have any additional thoughts I suggest that you marshall them and we discuss it further before going forward with a request for approval to hire Fred on contract.
